SAWP (SUGGESTION & ACHIEVEMENT AWARDS PROGRAM) AS A RESULT
OF THE PROBLEM MENTIONED IN THE LAST WEEKLY REPORT CONCERNING CAM
COMMAND REACTIONS ON THE DELTA DATA 7260 AND 5000, ALL SWAP MENUS
CONSISTING OF 27 DISPLAY LINES OR LARGER HAVE BEEN SHORTENED TO
DISPLAY 26 LINES OR LESS. IN FURTHER DISCUSSION OF THE PROBLEM
WITH SPD, IT HAS COME TO LIGHT THAT THE ROOT OF THE PROBLEM LIES
IN THE FIRMWARE OF THE DELTA DATA 7260 TERMINAL AND MAY REQUIRE
CONSIDERABLE TIME AND EFFORT TO ALLEVIATE. A NOTE OF CAUTION MAY
BE ADVISABLE TO THOSE PROJECTS CURRENTLY DEVELOPING FULL PAGE OR
MULTI-PAGE MENUS VIA CAM COMMANDS THAT ARE TO BE DISPLAYED ON BOTH
THE DELTA DATA 7260 AND 5000. [   ] (U)
